Mr. Jim Gordon
5203A Raton Pass
Austin, TX 78724

Dear Jim:

It seems as if I am inundating you with reading material. I recognize this is time-consuming; however, everything I am sending you deserves careful examination on your part. I cannot help but entertain the feeling that these are essential matters that should be brought to the attention of the Hierarchy so that they can give their feedback in the light of these present systems of approach.

I am handing you herewith another document sent to me from Mary Hardy. The main thrust of her presentation is a very enlightened piece by Joe Jochman, who we know is a Coptic. When I first read this, I felt that it may be that Mary Hardy is now seeking sources for her activities other than that of Ken Killick. However, when I got over to the map which has the number 6 at the bottom wherein she is pointing out the need for an obelisk to be installed in Tucson, she has indicated "(For a clearer explanation of this system, write Kenneth Killick. He is the designer of this system.)"

You can see therefore that actually what Mary is doing, she is bringing into an association of commonality between Kenneth Killick and Joe Jochman. That begins to throw a cloud on the total representation. This badly needs clarification for the reason that the seriousness of the subject matter must be clarified for future foundation examination.

With love and light,

Sincerely,

John E. Fetzer
President
